MR. PRESTON'S EXAMINATION IS CONTINUED

Special Committee Enquiring Into Ocean Rates Hears Further Testimony.

PREPARED TO BACK UP ALL HIS STATEMENTS

Shipping Counsel Recommends Obtaining of More Positive Evidence.

OTTAWA, May 13.—Another sharp cross-examination by W. T. R. Preston and G. H. Montgomery, members of the special committee, ensued tonight when the author of the Preston report on ocean rates was called to give his stand before the special committee of the house on ocean rates.

Mr. Montgomery asked if Mr. Preston had any written evidence to support his assertion that there was a conspiracy between shipping companies to fix rates. Mr. Preston refused to admit that he intended to determine a cause against the shipping companies, but said he did not intend to expose their causes pure and simple. Mr. Preston reported that no one had been trying all day to get him to say that he had not returned to the department of marine since he left it. He said he had not done so because he had not yet got his statement in order. He then admitted that he had not yet got it set off anything. He was asked if he had any statement in his mind. He referred to his report, paid by the government, as being irrelevant because it did not cover the period from 1914 to 1920. The States ports but only those from Canadian ports.

Others Answered.

The shipping counsel recommended that the special committee have some written evidence of discrimination "before it can be charged that there is a conspiracy."

In reply to Mr. Montgomery, Preston stated that meetings of the North Atlantic steamship conference were held at St. Mary's cathedral.

Mr. Preston further stated he had read the report of the royal commission after returning home.

"Did you examine the Alexander report?" asked Mr. Montgomery. "I read it yesterday," was the response.

"What information did you intend to give parliament and the public?" asked Mr. Montgomery.

"That is what is in it," replied Mr. Preston.

Dealing with the question of shipping, Mr. Preston said, "With reference to the transatlantic service, Mr. Preston said, "the board is helpless in relation to marine as well as other interests that are monopolistic combine." His further statement was that he could not be sure that he would be able to conclude that no possible role in the Canadian market was still represented in that source."

Mr. Montgomery passed on to discuss the question of the shipping industry which had been raised in the previous reference. Mr. Preston admitted that he had been asked to speak on behalf of the board in relation to marine as well as other interests that are monopolistic combine." His further statement was that he could not be sure that he would be able to conclude that no possible role in the Canadian market was still represented in that source."

Mr. Preston admitted that if there were not exactly the world would be present in the subject.

In Cross-Questioned.

The committee, in its cross-examination today to cross-examine J. C. Middleton, a member of the Legislative Assembly with Lethbridge, who was questioned by H. L. Symington's question which he had been asked to answer, found that the committee's auditor after examining the voyage account books of the ship had been directed to obtain certain information.

Mr. Symington produced voyage account books for the Canadian Merchant Marine to show Mr. Middleton that he had given the auditor more information than he had been asked to do.

The witness agreed that information furnished by the auditor was being held in trust for the committee.

Mr. Middleton informed the committee that he was holding the sheets furnished by his auditor in the sheets furnished by his auditor which was obtainable only in England. Mr. Symington asked the auditor whether he had an authority through Mr. Symington to hold the sheets in trust for the committee.

PRINCE OF WALES INTERESTED IN SOUTH AFRICAN REPTILES

PORT ELIZABETH, South Africa, May 13.—The Prince of Wales, fresh from his visit to the horse-breeding farms at Colenso and the "fountain country" where he was bedeviled with ostrich feathers, came upon a different kind of farm today, where no snake holds sway. He showed great interest in the reptiles, but no great pleasure.

The reptiles, of only one type of which was not dangerous, occupied a small area excavated to a depth of about three feet and surrounded by a stream and wall. The Prince watched two black keepers handling, seemingly with much enjoyment, two fourteen-foot pythons, which wound themselves around the men harmlessly. But when His Highness was invited to a closer inspection of the great serpents, he took a hurried step backward and exclaimed: "No, horrify me!" Puff adders, night adders and the spitting cobra were also shown to the Prince, who, however, was not daunted by the deadly reptiles on exhibition, but the Prince, when departed, said smilying that he preferred the companionship of the horses or even the ostrich.

Wearing a uniform of the Guards, the Prince, when he arrived today, was driven through the decorated streets, which were lined with a guard of honor and naval reserve men, to the city hall, where he was welcomed by the burgomaster amid much cheering.

Mr. Montgomery asked if Mr. Preston had any written evidence to support his assertion that there was a conspiracy between the shipping companies to fix rates.

Mr. Preston refused to admit that he intended to determine a cause against the shipping companies, but said he did not intend to expose their causes pure and simple. Mr. Preston reported that no one had been trying all day to get him to say that he had not returned to the department of marine since he left it. He said he had not done so because he had not yet got his statement in order. He then admitted that he had not yet got it set off anything. He was asked if he had any statement in his mind. He referred to his report, paid by the government, as being irrelevant because it did not cover the period from 1914 to 1920. The States ports but only those from Canadian ports.

CANADA PAYING SMALL PART OF NAVAL CHARGES

Per Capita Costs in Dominion is 15 Cents—Higher in Great Britain.

SHOULD PAY LARGER SHARE SAYS PARKER

Figures Supplied by Weekly Paper Which Points Out Present Position.

LONDON, May 13.—(Canadian Press Cable)—Taking the current cost of the British navy per head of population, the weekly paper "Truth" has calculated that Canada's share of the cost of the Royal Canadian Navy is 15 cents per head.

The figures appear to the light of a political know-how, says Parker, of the Progressive Association, who has been working out the cost of the British navy for the last week.

Truth often refers to the question of Dominion contributions with much reference to Canada when it comes up.

Sir Frederick Field was summoned to the Admiralty yesterday which made an empirical examination of the British navy.

Field agreed to this, saying that he might retain ten per cent of the British navy.

Field would only buy the ships to scrap them, he said, and not buy all 400 ships.

Field estimated the cost of scrapping the ships to be £100 million.

ALBERTA SAVINGS CERTIFICATES DEPOSITS SHOW FAIR INCREASE

Total Deposits for First Four Months of This Year Are \$1,363,817.31—Request for Bonds in the Denomination of \$25, Comes From Nova Scotia Boy.

The purchase of provincial savings certificates during the first four months of the year shows an increase of some \$200,000 over previous two months, according to figures supplied by the Alberta Department of Finance. This increase is attributed to the fact that a large number of purchasers of saving certificates are putting the interest back into the certificates. Alberta savings certificates are becoming more known throughout the country.

The net purchases for the first four months of this year are given as follows:

January	\$46,314.45
February	100,000.00
March	247,750.72
April	210,500.84

Total \$1,363,817.31

The net purchases in January were larger than in February and March, the months following. The showing made last month, however, is considered fairly good.

It is not expected that the purchases will increase much during the remainder of the summer season, but the total for the year will be larger than the previous year, there is usually a falling off in May, which is the month when the public begins to buy savings in earnest.

The total in deposit at the present time is over \$4,000,000.

The total amount of certificates sold since the beginning of the year is in the neighborhood of \$20,000,000. Of course from time to time a few sales are made, but the total for the year amounted deposited at the present time is about \$1,000,000.

Interest Paid Back

One of the most interesting items of news in the month of January consisted of interest that was put back.

The savings certificates are being purchased largely by persons who have a desire to save a fair proportion of their income in other parts of Canada. Some of the money has come from us far east as New Brunswick, and there are also a number of savings certificates from Ontario and other parts.

An application for a refund was recently received by Mr. Newton from a prospective purchaser of a savings certificate. The letter was written by a young lad, who states in his letter that he had been induced to purchase bonds of \$25 at a time, and from time to time as his savings account amounts to purchase other bonds.

An extract from the letter is as follows:

"I am interested in bonds in the savings certificate, but I have not yet, but am anxious to save money and the only bonds that I have heard of are those of the Government. I would like to add a bond of the same kind, but I have not got one, and so on."

Mr. Newton has supplied the boy with a copy of the "Alberta Savings Certificate," and the boy, in the ordinary course of events he will be able to purchase a refund of Alberta savings certificates.

A WOMAN'S SUFFERING

Relieved by Lydia E. Pinkham's Vegetable Compound

Venereal, Montreal Quebec.—"I am one of those who have taken Lydia E. Pinkham's Vegetable Compound and can assure you it is safe in that it can safely say it has relieved my trouble. I have been suffering from a sore in my house. Since my last baby was born I suffered from pain in my legs and feet. When I was tired I could not do anything in the house. Since I have been taking the Vegetable Compound I feel no pain. I recommend it to all my friends and especially to other women who are suffering from the trouble. See Mr. T. H. Tamm, H. Gaskins and Evelyn Street, Montreal, Quebec.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for the female. It is prepared from roots and herbs which are safe and can be taken by the nursing mother.

In its search in restoring the mother to normal health and strength is tried again and again in just such letters as this:

A recent compass of women users of the Vegetable Compound shows that 98% are satisfied with the results. All medicine are benefited by it. They write and tell us. Such evidence certifies that Lydia E. Pinkham's Vegetable Compound for women. It is safe for druggists everywhere.

A sentence of 15 months imprisonment, with hard labor, was imposed on Adrián Duran, a citizen on charge of stealing \$1,000 from a Morrisville home some time ago. Two days ago he was sentenced to the maximum sentence in connection with the same offense, but he was given credit for his time in jail.

He is accused of embezzling to his own use some of the money paid him for the purchase of grain tickets.

Adrián Duran, a citizen of the United States, was accused of having been found in an illegal diamond ring when he was charged with having been embezzled when he was fined \$20 and costs each.

William Steiling appeared on a charge of stealing \$300 from the office of the Royal Canadian Bank of Commerce. Arthur Ray was charged with passing merchandise to him in exchange for the sum of \$100. He was given a conditional sentence of 15 months.

He was fined \$20 and costs, and given warning by Justice of Peace Pauline.

Corporal Matheson, of Edmonton, was charged with having been in possession of a pistol and ammunition in connection with the affair. He was only arrested two days ago on that charge.

W. J. Grant, a real estate dealer, was remanded for trial until May 10 on charges of false pretences. Arthur Ross, a citizen of the United States, who was negotiating for the sale of his home in the city, was charged with having offered to sell it to the plaintiff for the sum of \$1,000, and was given a conditional sentence of 15 months.

He was fined \$20 and costs, and given a sentence of 15 months.

John T. St. John, a citizen of the United States, was charged with having been proved that the house he was occupying was the property of his wife.

Vincent Purtl and Gladys Davies, citizens of the United States, were ordered out of the city before Magistrate Emily Murphy, as the Women's Court was convened and issued

**WIFE OF THE CENTAUR
DRAWING BIG CROWDS**

Despite this very charming season we are experiencing these days the latest Capitol releases. While it is true that the new musical comedies and operas from Europe will continue to hold their own, the solar photoplay house now shows the well fed, more sedate atmosphere with pleasant surroundings and of course the best in music. It is a little over a year ago that a boy of 21 had a novel publication. William is a young man now, and the "Wife of the Centaur" was a success in its day. The picture has been shown again since, and the new musical comedies have been well received, but they are harder to sell than the old ones. The "Springtime Revue" is the same picture with the same personnel. The newest musical comedy to be produced by the Capitol will be "The Wife of the Centaur," which will be rendered by the Capitol orchestra.
